Shopfitting Systems

This stylish, modular display system combines simplicity with strength and style to offer almost limitless variations in design and display application.

The heart of the system

JOI wall fitting (JI001). Manufactured from mild steel. Polished chrome finish. Suitable for use in panel thickness from 16-25mm. Sits flush to the panel surface. 26mm hole dia. required.

Standard nut (2) and washer (3). Made from mild steel. (2) & (3) fit to rear of panel to secure wall fitting in place, 12kg capacity.

Optional heavy duty nut available. JI0012 75x75x5mm. Mild steel. Facilitates extra load bearing capacity for heavier weight display applications. 20kg capacity.

*SEE BACK PAGE FOR ADDITIONAL DETAIL

JI00C JOI Mild steel polished chrome plated concrete wall fitting

Engineered for versatility

Fitted through panels or directly inserted into concrete or masonry walls, the JOI shopfitting system allows you to precisely plan and create your own specific visual concept.

Starting with the wall fitting, you specify the quantity, configuration and type of accessories needed to best suit your individual need.

Interchangeable hardware and accessories

Accompanying the system is a wide range of versatile merchandise support accessories.

Manufactured from high quality materials, all accessories are engineered to allow for ease of use and maximise product exposure.

Panels & accessories can be custom manufactured to suit specialised display requirements or colour accents.

Unlimited applications

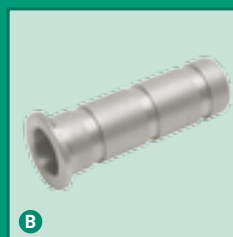

From fashion apparel right through to gifts, manchester and homewares JOI provides complete flexibility in merchandising & display application.

JOI wall fittings machined into timber, pre finished board and laminated materials can also be constructed into freestanding and P.O.S display units providing both uniformity in store fixturing and interchange of hardware.

Versatile system devices

(A) JI001 system device for panels 18-25mm in thickness.

(B) JI0012 system device for direct fix into concrete walls.

Facilitates heavier weight display application

Optional heavy duty nut (C) JI00C available to increase weight carrying capacity of JI001 wall fitting device from 12KG to 20KG.

Unlimited sizes and finishes

Select from a wide range of standard panel sizes and finishes or alternatively, create your own concept with customised finishes, fixtures and fittings!
